Illustration for placing finger

- **Correct method** (Straighten your finger and then place it on the sensor. Ensure the finger is flat and covers the entire sensor window)

Always place finger in the center of the sensor.

Try to place your finger covers the entire sensor window.

- **Incorrect method**

DO NOT move your finger before the backlight of sensor turns off.

DO NOT place finger away from the center of the sensor window.

DO NOT place finger at an angle.

DO NOT take off finger during the fingerprint verification process.

DO NOT just use your fingertip.

DO NOT slide your finger during the fingerprint verification process.

Installation Diagram

Back panel install way:

Steps:

Step1: Drill holes in the wall follow the hole position on back panel.

Step2: Install and fix back panel, connect related cables.

Step3: Place M5 Pro on back panel, fix screw at the bottom of M5 Pro.

Without back panel install way:

Steps:

Fix M5 screws directly to the bottom shell behind the wall, the depth of screws is 8mm. This install method is unique, safe and convenient. Package list has no these screws, according to wall thickness select the length of M5 screws.

		⑭	Orange	NC

Anviz Wiegand Wiring:

SC011 and the device are paired by Anviz wiegand to be a distributed access control system.

SC011 authorization setting:

Make sure correct wiring between M5 Pro and SC011, power on them, then move slide switch to 'PROGRAM MODE' as below:

Switch in 'PROGRAM' on the SC011: Move slide switch to left(ON).

Wiegand 26 Wiring:

Between M5 Pro and Anviz SAC844 or other Access Controller as below:

Wiegand data output format:

1. Anviz Wiegand data output format:

ALL registered users output devices' last eight serial number.(For example, SN of one device is 1050000014470004, then Anviz Wiegand output 14470004.)

2. Wiegand 26 data output format:

Card user: Output card number.(Decimal)

Fingerprint user: Output ID number

3. Wiegand output format can be set by PC software

Wiring Type Access Controller

Switching Power Supply

Important notice:

Please carefully follow this wiring instruction. Any damage caused by incorrect wiring is not covered by warranty.

Working with Management Software

1. Install the Management Software on Computer

Put the CD in the management computer. The installation program will run automatically.

How to connect M5 Pro with Software?

1st Method: Mini USB

- ① Loose the screw on the bottom of M5 Pro, then pull up the front case, separate from back panel.
- ② Connect USB cable between M5 Pro and PC which has installed software.

Pay Attention:

If management cards are registered, indicator light turns yellow and flashes. You must verify any management card first. If no management card is registered, you can communicate with M5 Pro directly.

2st Method: Mini USB

Right click on the device icon  and choose 'Set the IP configuration' to set correct network environment parameters such as above window.

2. Enable Communication between M5 Pro and the Management Software CrossChex

- *Turn on management software CrossChex
- *Go to Device tab. Search and add the M5 Pro to management software CrossChex
- *Click Synchronize Time button to communicate with M5 Pro. If Synchronize is successful, the device icon will turn to blue.

3. The Management Software CrossChex Features

- ***Device\Backup User:** Download user info from M5 Pro to CrossChex
- ***Device\Download Records:** Download records from M5 Pro to CrossChex
- ***User\Modify:** Edit name or other user info. Then click "Upload User" to Upload user info to M5 device

- *Record\Search: search and view the records
- *Attendance: Calculate, Search results and generate reports
- *Data\Backup Database: Backup Database
- *Setting\Shift: Set up Time table and Scheduling
- *Device\Device Parameter: Set up device, Clear records on M5 Pro or Reset M5 Pro to factory settings

Function Button

Press function button until you hear beeps which means the information of Enroll Card and Delete Card have been eliminated in the device.

Notice: The operation will not delete user data stored in the device.

After that, you MUST register management cards (Enroll Card and Delete Card) to run the machine.

▪ Register Management Cards (Enroll Card and Delete Card)

Operation Guide

■ IMPORTANT:

M5 Pro is suitable for DC12V power supply only. When connect to DC12V power supply, the indicator light displays blue and flashes fast. Meanwhile, the backlights of fingerprint sensor turn on with beeps.

■ Register User:

● Add One Fingerprint per User Only:

Note: 1. After finish enrolling current user, please swipe enroll card and then continue register another user.

2. After finish enrollment, please swipe enroll card TWICE to exit enroll status.

Notice:

When you place finger on M5 Pro, Red LED flashing with two long beeps means the finger has been registered.

● Add Card Only:

Note: 1. After finish enrolling current user, please swipe enroll card and then continue register another user.

2. After finish enrollment, please swipe enroll card TWICE to exit enroll status.

Notice:

When you swipe card on M5 Pro, Red LED flashing with two long beeps means the card has been registered.

Operation Guide

● Add Two Fingerprints of one User:

* Two fingerprints belongs to one user ID.

Note: 1. After finish enrolling current user, please swipe enroll card and then continue register another user.

2. After finish enrollment, please swipe enroll card TWICE to exit enroll status.

● Add Fingerprint and Card of one User:

* The wiegand output of fingerprint and card are the same.

Note:

1. After finish enrolling current user, please swipe enroll card and then continue register another user.

2. After finish enrollment, please swipe enroll card TWICE to exit enroll status.

Operation Guide

• Add Two Fingerprints and Card of one User:

* The wiegand output of fingerprint and card are the same.

Note: 1. After finish enrolling current user, please swipe enroll card and then continue register another user.

2. After finish enrollment, please swipe enroll card TWICE to exit enroll status.

■ Delete User:

• Delete Fingerprint or Fingerprint and Card

After delete one user, you can continue to delete another user or swipe Delete Card to save and exit.

When fingerprints or card belong to one user ID, you can delete either one to delete this user.

Notice:

When you place finger on M5 Pro, Red LED flashing with long beeps means the fingerprint does not exist in the device.

Operation Guide

• Delete Card:

After delete one user, you can continue delete another user or swipe Delete Card to save and exit.

Notice:
